Your One–Stop Shop for a *smart* Entry into European Markets

Strategic Business Consulting

With our senior management experience in various industries, we assist you in achieving most value in a rapidly changing business environment.

Business Development and Expansion Strategies

The .BCNI experts develop smart expansion and go-to-market strategies based on a broad experience in key industries and international management.

Markets and Products

We "translate" your products and services into solutions for European business and market needs: More than 20 years of comprehensive marketing and management expertise in world-leading international companies, e.g. European-wide marketing campaigns, sales and product launches. In-depth experience in all key industries and all marketing tools. Broad experience in the management of large, international projects and budgets.

Company Foundation, Administration, Legal, Tax and BPO

With local experts in each European country we provide the coordination of all legal, fiscal, monetary, customs and foreign exchange, transport, storage and operational management transactions in the field of international goods and services.

Business Location

.BCNI provides industry-savvy consulting services about whether, how and where to start business or to expand market share in Europe. And we know the right location which fits best to your industry and your business.

EU Insight

We guide you through the "maze" of EU compliance and regulations, based on 20 years of experience for international clients.

Human Resources

We provide broad experience to find the right person for the right job. And we take care of your payroll according to the local law and regulations, reliably and in due time.

The .BCNI Market Experts for Europe:
Always on time–on budget–on target
